

AUTOKART

Tired of Repetitive Lifting and Moving?

The AutoKart reduces the necessity of lifting an AutoMark, precinct ballot scanner and ballot box from up to eleven times to just one time. That one time is when the equipment is received from the manufacturer at the warehouse. After the initial receipt of the equipment, the equipment need never routinely be lifted. The time, effort and money saved by using the AutoKart is dramatic.

Traditional Storage and Deployment Methods	Traditional Lifts	AutoKart Lifts	AutoKart Solution
1. Lift equipment received from the manufacturer to the storage units.	1	1	Lift equipment received from the manufacturer and load onto the AutoKart
2. Lift the equipment from the storage units to a table for maintenance.	1	0	Maintenance may be performed while the equipment remains on the AutoKart.
3. Lift equipment back into the storage units.	1	0	Equipment remains in the AutoKart.
4. Lift Equipment from the storage units and load into cases or bags to be transported to the precinct.	1	0	Equipment remains in the AutoKart.
5. Lift the cases/bags into the trucks for delivery to the precincts.	1	0	Equipment remains in the AutoKart. Roll the cart into the truck.
6. Lift the equipment from the truck to the precinct.	1	0	Equipment remains in the AutoKart. Roll the cart from the truck to the precinct.
7. Lift the equipment from the cases/bags to the appropriate location at the precinct. Store the cases/bags.	1	0	Equipment remains in the AutoKart.
8. At the end of voting, retrieve the cases/bags and lift the equipment from the precinct location and place in the cases/bags.	1	0	Equipment remains in the AutoKart.
9. Lift the equipment cases/bags from the precinct to the truck for transport back to the warehouse.	1	0	Equipment remains in the AutoKart. Roll the cart into the truck.
10. Lift the equipment and move back into the warehouse.	1	0	Equipment remains in the AutoKart. Roll the equipment from the truck to the warehouse.
11. Lift the equipment from the cases/bags to the storage units.	1	0	Equipment remains in the AutoKart.
Totals: Remember to multiply the lifts times the number of pieces of equipment.	11	1	After the initial delivery, you need not move the equipment to or from the AutoKart at all.
